Add/Edit Prerequisites

1. Select the assessment from the drop down and define the minimum score to be achieved to complete the prerequisite.

2. To link the assessment to the drop down, click the assessment icon to open the assessment in an editor view. Filtering assessment using the table is only applied for the new drop down lists which has been selected.

3. You can add an alternate prerequisite assessment to a selected assessment which means the student can complete either of the assessments to meet the prerequisite criteria.

4. Click on 'Remove' which will remove the prerequisite.

5. Select the drop down and the learning activity from the drop down tree and click add button to list as prerequisite and define the minimum time to be spent on each learning activity.

6. Click on 'Remove' which will remove the prerequisite.

7. Click on 'View' tab to edit when an assessment.

8. To remove an student for the prerequisite, click on 'Class member' button below and select students and save.

2. Instructors are not allowed to enter a score that exceeds the maximum assessment score.

This feature ensures that the instructor cannot enter a score above the maximum assessment score. An alert message will appear when the instructor attempts to add a score above the maximum and tries to save the attempt.

EducoSoft www.educosoft.com says

* Entered score should not be greater the assessment max score.
